Introduction to the Indigenous Navigator framework and tools - Generic Course Plan

WCIP indicators built into the Navigator

| Module 1: Introduction | | Module 5: SDGs and Human Rights | Module 9: IP Index values |
|------------------------|--|--|---|
| • | What we monitor Long process of discussing monitoring of UNDRIP internationally – Navigator conceived in response to | 2030 agenda firmly anchored in HuRi Open process – IPs one of 9 Major Groups Leave no-one behind – commitment to non-disrimination | Graphic illustration of data – strong communication value Allows comparison of data – community/national – between countries – from time to time in the same place |
| • | this. Now recommended by UNPFII Quick intro to questionnaires | Commitment to HRBA in implementation, follow-up and review | Tech. explanation of calculationExerises |
| • | Why monitor | Commitment to use multiple data sources for monitoring – Navigator can feed directly into this (citizen-generated data) | |
| | | IPMG engagement in SDG process IP engagement in national processes (data/SDG-UNDRIP) | |
| М | odule 2: Overview of tools and resources | Module 6: Monitoring the SDGs | Module 10: Methodology for use of National Questionnaire |
| • | Quick presentation of all tools Questionnaires rooted in thorough analysis | SDGs and IPs (IPs typically 'left behind' – data is key) Navigator data's relevance and use for SDG monitoring | Measures states recognition of IP Rights – structure and process indicators |
| • | Full transparency into technical approach / analytical | General relevance of Navigator-generated data | Desk research |
| | foundations – but Q can also be used without | Integration of SDG indicators into Navigator framework | Use of guidance material |
| | worrying about technicalities | | Ex.of where to find relevant information |
| | worrying about teerimeanties | | |
| | | | Rxercises |
| М | odule 3: Monitoring UNDRIP | Module 7: Intro to questionnaires – C & N | • Rxercises Module 11: Methodology for use of Community |
| Mo | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and | Simple and user-friendly – and part of a comprehensive and | Rxercises Module 11: Methodology for use of Community Questionnaire |
| • | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing |
| M(| odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains Overarching principles of non-discrimination and self-determination | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing Generating collective responses Ensuring accuracy - using guidance to understand the |
| • | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains Overarching principles of non-discrimination and self-determination Collective and individual rights, incl. gender equality | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators Attributes - indicators | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing Generating collective responses Ensuring accuracy - using guidance to understand the questions, and communicate them clearly |
| • | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains Overarching principles of non-discrimination and self-determination Collective and individual rights, incl. gender equality UNDRIP is a reflection of universal human rights | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators Attributes - indicators From indicators to questionnaire | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing Generating collective responses Ensuring accuracy - using guidance to understand the |
| • | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains Overarching principles of non-discrimination and self-determination Collective and individual rights, incl. gender equality | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators Attributes - indicators From indicators to questionnaire Complementarity between national and community | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing Generating collective responses Ensuring accuracy - using guidance to understand the questions, and communicate them clearly |
| • | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains Overarching principles of non-discrimination and self-determination Collective and individual rights, incl. gender equality UNDRIP is a reflection of universal human rights The mirror effect – comparative matrix Treaty bodies' contribution to monitoring IP rights | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators Attributes - indicators From indicators to questionnaire Complementarity between national and community questionnaires: Legislation, policies and programmes in nat | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing Generating collective responses Ensuring accuracy - using guidance to understand the questions, and communicate them clearly Technical intro to online Q and its use |
| • | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains Overarching principles of non-discrimination and self-determination Collective and individual rights, incl. gender equality UNDRIP is a reflection of universal human rights The mirror effect – comparative matrix Treaty bodies' contribution to monitoring IP rights Exercises | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators Attributes - indicators From indicators to questionnaire Complementarity between national and community questionnaires: Legislation, policies and programmes in nat Q – implementation of UNDRIP on the ground in Comm Q | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing Generating collective responses Ensuring accuracy - using guidance to understand the questions, and communicate them clearly Technical intro to online Q and its use Exercises |
| • | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains Overarching principles of non-discrimination and self-determination Collective and individual rights, incl. gender equality UNDRIP is a reflection of universal human rights The mirror effect – comparative matrix Treaty bodies' contribution to monitoring IP rights Exercises odule 4: Monitoring the WCIP | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators Attributes - indicators From indicators to questionnaire Complementarity between national and community questionnaires: Legislation, policies and programmes in nat Q – implementation of UNDRIP on the ground in Comm Q Module 8: Technical intro to indicators (optional) | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing Generating collective responses Ensuring accuracy - using guidance to understand the questions, and communicate them clearly Technical intro to online Q and its use Exercises Module 12: Validity, 'storage' and use of data |
| • | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains Overarching principles of non-discrimination and self-determination Collective and individual rights, incl. gender equality UNDRIP is a reflection of universal human rights The mirror effect – comparative matrix Treaty bodies' contribution to monitoring IP rights Exercises odule 4: Monitoring the WCIP WCIP 2014 – stock-taking of implementation of IP | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators Attributes - indicators From indicators to questionnaire Complementarity between national and community questionnaires: Legislation, policies and programmes in nat Q – implementation of UNDRIP on the ground in Comm Q Module 8: Technical intro to indicators (optional) Structuring UNDRIP into thematic domains | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing Generating collective responses Ensuring accuracy - using guidance to understand the questions, and communicate them clearly Technical intro to online Q and its use Exercises |
| • | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains Overarching principles of non-discrimination and self-determination Collective and individual rights, incl. gender equality UNDRIP is a reflection of universal human rights The mirror effect – comparative matrix Treaty bodies' contribution to monitoring IP rights Exercises odule 4: Monitoring the WCIP | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators Attributes - indicators From indicators to questionnaire Complementarity between national and community questionnaires: Legislation, policies and programmes in nat Q – implementation of UNDRIP on the ground in Comm Q Module 8: Technical intro to indicators (optional) | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing Generating collective responses Ensuring accuracy - using guidance to understand the questions, and communicate them clearly Technical intro to online Q and its use Exercises Module 12: Validity, 'storage' and use of data |
| • | odule 3: Monitoring UNDRIP A holistic approach to monitoring IP rights and development – the 13 domains Overarching principles of non-discrimination and self-determination Collective and individual rights, incl. gender equality UNDRIP is a reflection of universal human rights The mirror effect – comparative matrix Treaty bodies' contribution to monitoring IP rights Exercises odule 4: Monitoring the WCIP WCIP 2014 – stock-taking of implementation of IP | Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators Attributes - indicators From indicators to questionnaire Complementarity between national and community questionnaires: Legislation, policies and programmes in nat Q – implementation of UNDRIP on the ground in Comm Q Module 8: Technical intro to indicators (optional) Structuring UNDRIP into thematic domains | Rxercises Module 11: Methodology for use of Community Questionnaire Preparing Generating collective responses Ensuring accuracy - using guidance to understand the questions, and communicate them clearly Technical intro to online Q and its use Exercises Module 12: Validity, storage' and use of data Robustness of design |
